

Post - Care Instructions

Filler & Collagen Biostimulator

[All HA fillers, Juvelook
Volume, Ultracol, Ellanse,
Radiesse, Sculptra]

You may wash your face and apply makeup 2-3 hours after treatment.

Bruising, swelling, and tenderness may last 1-2 weeks. Do not rub, press, or apply pressure to the treated area unless directed by your provider.

Avoid saunas, excessive heat, and strenuous exercise for 1 week.

Protect injection sites from UV exposure during recovery.

Take any prescribed antibiotics as directed (unless you have a known allergy).

Avoid alcohol and smoking for 7 days.

Some asymmetry during healing is normal. Allow several weeks for results to fully settle before assessing.

If you notice unusual darkening or increasing pain at the treated area, please reach out to us right away.

If swelling or itching worsens after you leave the clinic, contact us so we can advise.

For any other concerns, contact us via [WA](#) or [DM](#) on Instagram.
