

Post - Care Instructions

Skincare Treatments

[Aqua Peel, Milk Peel, Black Peel, LHALA Peel, Aladdin Peel, Watertox, LDM, O2Derm, Gold Therapy, Avenan, Blackhead Care, Ionto, Velvet Care, etc.]

Apply sunscreen daily – this is especially important after any peel or exfoliating treatment.

Mild redness or temporary breakouts after treatment are normal and will settle shortly.

If any flaking or scabbing occurs, let it fall off naturally – do not pick or scratch.

Avoid scrubs and exfoliating products for 1 week.

You can wash your face and apply makeup on the same day.
